

Groundwater Use in Illinois

Total

Groundwater (mgd — fresh, not saline).....	853
Percentage of total freshwater* supply for state.....	6.51%

Public Supply

Groundwater (mgd)	367
Percentage of total groundwater.....	43.0%
Percentage of total public supply	24.5%

Individual Household

Groundwater (mgd)	92.4
Percentage of total groundwater.....	10.8%
Percentage of total individual household supply	100%

Irrigation

Groundwater (mgd)	208
Percentage of total groundwater.....	24.4%
Percentage of total irrigation.....	92.0%

Livestock/Aquaculture

Groundwater (mgd)	40.8
Percentage of total groundwater.....	4.78%
Percentage of total livestock/aquaculture.....	59.9%

Industrial, Self-Supplied

Groundwater (mgd)	124
Percentage of total groundwater.....	14.5%
Percentage of total industrial, self-supplied	31.8%

Mining

Groundwater (mgd)	15.5
Percentage of total groundwater.....	1.82%
Percentage of total mining.....	21.9%

Thermoelectric

Groundwater (mgd)	5.65
Percentage of total groundwater.....	0.66%
Percentage of total thermoelectric.....	0.05%

(mgd = million gallons per day)

Groundwater's Role in Illinois's Economic Vitality

- Few states can accurately or confidently determine how many residential wells are in place. For each region, the American Housing Survey by the U.S. Census provides regional data. The Midwest region includes the states of Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota, North Dakota, South Dakota, Iowa, Nebraska, Kansas, and Missouri. The last American Housing Survey indicates this region had 3,990,000¹ households served by residential wells, with an average of 2.63² persons per household. The U.S. Census stopped asking citizens their source of water supply following the 1990 Census. The USGS estimates the population of self-supplied water supply users in Illinois to be 1,160,000³.
- 1,150 community water systems use groundwater for 3,190,000 people⁴.
- 411 non-community, non-transient water systems use groundwater for 120,000 people⁴.
- 3,110 non-community, transient water systems use groundwater for 336,000 people⁴.
- 5,250 irrigation wells are in use serving 1,480 farms and 527,000 acres⁵.

* All totals and ratios are measures of freshwater only.

Illinois's Groundwater Industry Employment

Men and women working to provide and protect Illinois's groundwater resources for the benefit of people, business, and our environment.

Illinois's Contracting Employment

Drill and service water wells, install and service pumps, install and service point-of-use water treatment devices. This portion of the industry is characterized by small firms, many of which are multi-generation family-owned and operated.

- 150 firms employ an estimated 1,210 people⁶
- Annual estimated sales of \$384 million⁶

Illinois's Scientists and Engineers Employment

Geologists, hydrogeologists, engineers, geochemists, geophysicists, microbiologists, regulators.

Environmental Consulting⁷

NAICS 54162: Establishments primarily engaged in providing advice and assistance on environmental issues, such as the control of environmental contamination from pollutants, toxic substances, and hazardous materials.

- 696 firms employ an estimated 2,190 people
- Annual estimated sales of \$316 million

Remediation⁸

NAICS 56291: Establishments include those engaged in remediation and cleanup of contaminated buildings, mine sites, soil, or groundwater.

- 209 firms employ an estimated 2530 people
- Annual estimated sales of \$408 million

Public Service and Universities, Colleges, and Research Centers

- Many more dedicated individuals
